
PIPE SLEEVE

Figure 450

Used as a form to provide a penetration in walls for pipe or other services. Install by nailing to structure. Covers are available on request.

Other types of pipe sleeves e.g. waterproof, interlocking, etc. are available.

Material: Carbon Steel, 24 gauge, heavier gauges on request.

Finish: Hot-Dip Galvanized.

Ordering: Specify inside diameter, gauge thickness, length, and figure number.
