

## ALL-THREAD HANGER ROD

### Figure 94 Figure 94SS

This product has a standard rolled thread running its entire length. It is particularly useful when exact rod lengths are questionable.

**Material:** Figure 94 is made of carbon steel while Figure 94SS is available in either 304 or 316 stainless steel. Available in precut six, ten, and twelve foot lengths. Can be cut to suit customer need upon request.

**Finish:** Plain, Electro-Galvanized, or Hot-Dip Galvanized.

**Ordering:** Specify figure number, finish, rod size, and length. For Metric applications specify Figure M94 or M94SS.

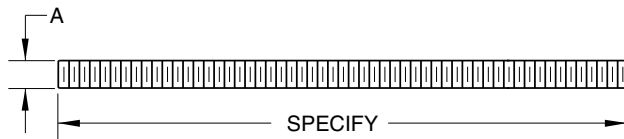

FIGURE 94 – ALL-THREAD HANGER ROD

DIAMETER A	MAXIMUM LOAD*	WEIGHT PER FOOT
$\frac{3}{8}$	610	0.30
M10	2714	0.14
$\frac{1}{2}$	1130	0.53
M12	5027	0.24
$\frac{5}{8}$	1810	0.84
M16	8052	0.38
$\frac{3}{4}$	2710	1.20
M20	12055	0.54
$\frac{7}{8}$	3700	1.70
M20	16459	0.77
1	4960	2.30
M24	22064	1.04
$1\frac{1}{4}$	8000	3.60
M30	35587	1.63
$1\frac{1}{2}$	11600	5.10
M36	51601	2.31

\* For carbon steel only
